The alien artefact working through its program under the clouds of Venus has emerged to build a massive structure outside the orbit of Uranus: a gate that leads into a starless dark. Jim Holden and the crew of the Rocinante are part of a vast flotilla of scientific and military ships going out to examine the artefact. But behind the scenes, a complex plot is unfolding, with the destruction of Holden at its core. | Neil Gaiman | The Ocean at the End of the Lane | Tp | \$27.99 | \$22.95 | This is a fable that reshapes modern fantasy: moving, terrifying and elegiac - as pure as a dream, as delicate as a butterfly's wing, as dangerous as a knife in the dark, from storytelling genius Neil Gaiman. It began for our narrator forty years ago when the family lodger stole their car and committed suicide in it, stirring up ancient powers best left undisturbed. Dark creatures from beyond the world are on the loose, and it will take everything our narrator has just to stay alive: there is primal horror here, and menace unleashed - within his family and from the forces that have gathered to destroy it. His only defense is three women, on a farm at the end of the lane. The youngest of them claims that her duckpond is ocean. The oldest can remember the Big Bang. |

If Axon succeeds, Tak will lose Samira Moheb, the woman he has loved since high school - because her future will cease to exist. A veteran of the Iraq War suffering from post-traumatic stress disorder, Samira can barely function in her everyday life, much less deal with Tak's ravings of multiple realities. The only way to save her is for Tak to use the time travel device he borrowed to transport them both to an alternate timeline. But what neither Tak nor Axon knows is that the actual inventor of the device is searching for a timeline called the Beautiful Land - and he intends to destroy every other possible present and future to find it. This is the story of the First Formic War. Victor Delgado beat the alien ship to Earth, but just barely. Not soon enough to convince skeptical governments that there was a threat. They didn't believe that until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could move fast enough to meet the threat.</p> |
| <p>A Bertram Chandler</p> | <p>Ride the Star Winds: John Grimes Saga #4</p> | <p>Pb \$13.50 \$12.15</p>  | <p>Number four in the collected adventures of the legendary John Grimes of the Galactic Rim series, including four novels. The Anarch Lords: John Grimes' short career as a somewhat benevolent space pirate is over, but he has sunk even lower, becoming a politician. The Last Amazon: Back on Sparta, the formerly all-male planet, Grimes is waiting for his own ship to arrive when he's caught up in yet another revolution - and you can't tell the good guys (or gals) without a program. The Wild Ones: Back on Earth was the last place that Grimes expected to be. Another thing he hadn't expected was accusations of witchcraft being taken seriously. Catch the Star Winds: An experimental sailing ship of space was intended to exceed the speed of light. Then strange things happened involving time itself, and the crew wasn't sure they would ever see home, or their home time, again.</p> |

In the ensuing centuries, the survivors settled on a hospitable planet called Nova Prime, withstood an onslaught from a mysterious alien force, and carved out a new home in the farthest reaches of the galaxy. This is the fractured home to which General Cypher Raige of the United Ranger Corps returns after an extended tour of duty. For Kitrai, his thirteen-year-old son, tagging along with his famous father is the adventure of a lifetime - and a chance to salvage their relationship. When an asteroid collides with their craft, they make a crash landing that leaves Cypher seriously - perhaps fatally - wounded. Kitai Raige has always wanted to prove that he has what it takes to be a Ranger. Now, all too soon, he gets his chance. With his father's life on the line, Kitai must venture out into the strange, hostile terrain of a new world that seems eerily familiar: Earth.</p> |

She is neither conscious nor unconscious, dead nor alive. There is something wrong with her cheekbones. She is waiting for you, she has been waiting for you for perhaps 10,000 years. She comes from the past, she comes from the future. She is about to speak...</p> |

Someone had activated a dimensional engine, sending my Drood Hall off to an alternate Earth, replacing it with a burnt-out doppelganger. My family is still alive out there. Somewhere. And nothing's going to stop me from finding them...</p> |

The Resurrectionist offers two extraordinary books in one. The first is a fictional biography of Dr. Spencer Black, from his humble beginnings to the mysterious disappearance at the end of his life. The second book is Black's magnum opus: The Codex Extinct Animalia, a Gray's Anatomy for mythological beasts - dragons, centaurs, Pegasus, Cerberus - all rendered in meticulously detailed black-and-white anatomical illustrations. You need only look at these images to realize they are the work of a madman. The Resurrectionist tells his story.</p> |
