Despite General Artur Drakon's misgivings, he partnered with another former CEO to overthrow Syndic forces. Now, with an enigma fleet menacing their hard-earned independence, he can ill afford to trust her - or lose her support. President Gwen Icení believes Midway is humanity's defense against the enigmas. Syndicate training taught her self-preservation in a crisis, yet she's determined to fight for the star system's fate... even if it means joining forces with Drakon - and an officer of the hated Alliance. Their plan places the Midway flotilla at great risk in hopes of greater reward: recruiting the personnel necessary to man warships against the enigmas. But before facing the alien advance, Drakon and Icení must survive hidden dangers closer to home.</p>

CEO Gwen Icení was exiled to Midway because she wasn't ruthless enough in the eyes of her superiors. She proved them wrong by commandeering some of the warships at Midway and declaring the star system's independence on behalf of the people though staying in charge as President. But while she controls the mobile fleet, she has no choice but to rely on General Drakon's ground forces to keep the peace planet-side. If their coup is to succeed, Drakon and Icení must put their differences aside to prevent the population of Midway from rebelling against them, to defend their star system from the enigmas - and to ferret out saboteurs determined to reestablish Syndic rule...</p>

The oldest and strongest kind of fear is fear of the unknown, the grand master of horror, H.P. Lovecraft, once wrote. And the greatest unknown is the vast universe, shrouded in eternal, cosmic night. What things might be on other planets - or in the dark gulfs between the stars? Giving very unsettling answers to that question are such writers as Ray Bradbury, Arthur C. Clarke, Robert Sheckley, Philip K. Dick, James. H. Schmitz, Clark Ashton Smith, Cyril M. Kornbluth, Alastair Reynolds, Neal Asher, Sarah A. Hoyt, and more, all equally masters of science fiction and of terror.</p>

So population control consists of two barbaric choices: starvation, or suicide. Trying to find a better way, a biologist starts experimenting with animals, and stumbles on a technique that radically alters the reproductive cycle. But while the advantages are obvious, there's a major drawback: while it spares women from their old role - reproduction without hope of survival - it will essentially wipe out an entire sex. Amid the turmoil created by this new possibility, physicists on the ship are working to develop the technology they will need to complete the mission of the Peerless. One of the expedition's founders dreamed of discovering the Eternal Flame: a way to generate thrust without consuming any fuel at all. The inhabitants on board the Peerless have some hard choices to make - and the wrong one could spell extinction for their entire race.</p>

And those who are closest to him, and might provide secondary targets, are going along. And it would appear that they were expecting him. As he returns home, bringing an entourage of strangers with him, he starts to wonder whether his discovery has been such a good thing. For the gods of this lost race are the gods of war, and their memories of that far-off cataclysm have not faded. The people of Fellein have live with legends for many centuries. <p>J R R Tolkien</p>	<p>Pocket Roverandom</p>	<p>Hb \$17.99 \$16.20</p> 	<p>J.R.R. Tolkien's fantasy story about the adventures of a bewitched toy dog, written before The Hobbit. While on holiday in 1925, four-year-old Michael Tolkien lost his beloved toy dog on the beach at Filey in Yorkshire. To console him, his father, J.R.R. Tolkien, improvised a story about Rover, a real dog who is magically transformed into a toy and is forced to seek out the wizard who wronged him in order to be returned to normal. This charming tale, peopled by a sand-sorcerer and a terrible dragon, by the king of the sea and the Man-in-the-Moon, was Tolkien's first full-length children's book, written before The Hobbit. Now, nearly 90 years later, the adventures of Rover - or, for reasons that become clear in the story, 'Roverandom' - are published in this delightful pocket hardback edition. Rich in wit and wordplay, Roverandom is edited and introduced by Tolkien experts Christina Scull and Wayne G. Hammond, and includes Tolkien's own delightful illustrations.</p>

Tim Powers	Hide Me Among The Graves	Pb \$19.99 \$18.00 	London, 1862. A city of over three million souls, of stinking fog and dark, winding streets. Through these streets walks the poet Christina Rossetti, haunted and tormented by the ghost of her uncle, John Polidori. Without him, she cannot write, but her relationship with him threatens to shake London itself to the ground. This fascinating, clever novel vividly recreates the stews and slums of Victorian London - a city of dreadful delight. But it is the history of a hidden city, where nursery rhymes lead the adventurer through haunted tunnels and inverted spires. And where the price of poetic inspiration is blood.
Dan Simmons	The Abominable	Tp \$29.99 \$27.00 	In June 1924, famous British climber George Mallory and his climbing partner Andrew Irvine disappeared on the North East Ridge of Mount Everest. Most of the subsequent publicity did not mention that two other climbers were missing: the future Lord Wessex and an unnamed German support climber. A year later, climber, poet and war hero Richard David Deacon sees a way he and his friends can reach the heights of Mount Everest. He tells Lady Wessex that they will look for her son if she bankrolls the operation. Now the danger Deacon and his group face is not only from the treacherous conditions; they are also warned of the mythical 'man bear' demons of the mountain - which they dismiss until they hear roars so loud they drown out the 100 mile-per-hour wind that is tearing their canvas tent to shreds around them...
David Wong	This Book Is Full of Spiders: John #2	Pb \$27.95 \$23.35 	Warning: You may have a huge, invisible spider living in your skull. THIS IS NOT A METAPHOR. You will dismiss this as ridiculous fear-mongering. Dismissing things as ridiculous fear-mongering is, in fact, the first symptom of parasitic spider infection - the creature stimulates skepticism, in order to prevent you from seeking a cure. That's just as well, since the cure involves learning what a chainsaw tastes like. You can't feel the spider, because it controls your nerve endings. You won't even feel it when it breeds. And it will breed. Just stay calm, and remember that telling you about the spider situation is not the same as having caused it. I'm just the messenger. Even if I did sort of cause it. Either way, I won't hold it against you if you're upset. I know that's just the spider talking.
